Footwear

xtreme TPU (NON MARKING) OUTSOLE

- > outstanding flex performance, even at low temperatures
- > high tensile & tear strength
- > excellent slip resistance
- > highly resistant to hydrolysis & microbial attack
- > heat resistant to 140°C
- > full heel breast with arch support for ladder & gentry safety
- > multi-directional 5mm tread pattern designed to disperse contact liquids & provide brilliant grip & traction
- > best abrasion resistance of any injected sole materials, providing outstanding longevity & value
- > sole design has been tested for Slip Resistance & found to be fully compliant with EN13287/04 - Ricotest Report No. 244921

EXECUTIVE RANGE

smartLite® soles give a substantial contribution to the overall comfort in footwear, through their combination of weight, flexibility & cushioned support.

ARMOURTREAD RANGE

Nitrile rubber outsole/polyurethane (PU) midsole with 5mm tread. Combining the flexibility & lightness of a low density polyurethane (PU) cushion layer with an extra heavy duty outsole of nitrile rubber. Includes new Blundstone "Shockzone" polyether PU footbed featuring a channelled air flow system & cushion lining.

DUAL DENSITY PU RANGE

Dual density polyurethane (PU) sole with 5mm tread. General purpose, lightweight footwear with fully removable shaped comfort footbed. Designed to give optimum comfort when worn for extended periods. The sole design has been tested and found to be fully in accordance with SATRA Test Method PM 144:1999 (Slip Resistance). SATRA Report 38836/9933/1/8

B780 Blundstone

Boots

- > executive range
- > classic black leather
